URGENT MATTER – SECOND PETITION**SECOND PETITION TO WITHDRAW HOLDING OF ABANDONMENT BASED
ON FAILURE TO RECEIVE OFFICE ACTION (MPEP 711.03(c))**

Dear Sir:

I am writing to follow up on the petition to Withdraw Holding of Abandonment, which was filed by my office on November 24, 2003 in the above-referenced case. We have not heard anything back with regard to the petition, and I draw your attention to the following history of handling of this case by the PTO.

The application was filed on November 20, 2000. The next time we heard anything at all from the Patent Office regarding this case was the Notice of Abandonment mailed on October 28, 2003, 3 years later! The only reason I knew the serial number was that the application was filed electronically, so I received its serial number electronically

immediately after filing. My office filed two inquiries concerning the status of the case to which no response was ever received. It is still a mystery to us why we cannot access this case in PAIR even though we have complied with all the requirements necessary for the upload to our customer number, including sending a disk with an Excel spreadsheet containing this serial number.

My assistant repeatedly spoke with the OIPE concerning this case. It turned out that the Notice of Missing Parts was sent on July 15, 2002, **almost a year and a half after the filing date of the application**. It was never received. We also learned that the application went abandoned on September 16, 2002, but the Notice of Abandonment informing us of this event was mailed to us only on October 28, 2003, **more than 1 year later!** This was the first communication we received from the PTO in this case. All the address changes were properly filed in the PTO. We have handled about 80 cases for this client, Leica Microsystems, in the past 5 years, and no paper mailed by the PTO was ever lost or not received in a single case except for this application. In January 2001 we filed an IDS (a certificate of mailing and a PTO stamped post card are in our file), but from our conversation with the OIPE it looks like the IDS has never been entered in this case. We still have not received a copy of the Notice of Missing Parts to reply to, even though we have made such a request.

It is already April of 2004, and we continue not to have a decision on our November 2003 petition and the application continues to be abandoned through no fault of our client.

I attach to this petition a copy of the November 24, 2003 petition, since it sets forth all the relevant facts to which I attest and provides copies of the relevant documents in accordance with MPEP 711.03(c). I draw your attention to the fact that this is ***not*** a petition to revive, because our client should not be required to go through the revival procedure. This is a petition ***to withdraw the holding of abandonment for failure to receive***, as specified in MPEP 711.03(c) a copy of which is enclosed.

I urge you to give this case your immediate attention and contact me at 781-863-9991 with any questions you might have. I believe that no fee is due with this petition. If a fee is due, authorization is given to charge our deposit account 502233.

appropriate petition fee) is necessary to revive the abandoned application.

37 CFR 1.181(f) provides that, *inter alia*, except as otherwise provided, any petition not filed within 2 months from the action complained of may be dismissed as untimely. Therefore, any petition (under 37 CFR 1.181) to withdraw the holding of abandonment not filed within 2 months of the mail date of a notice of abandonment (the action complained of) may be dismissed as untimely. 37 CFR 1.181(f).

Rather than dismiss an untimely petition to withdraw the holding of abandonment under 37 CFR 1.181(f), the Office may treat an untimely petition to withdraw the holding of abandonment on its merits on the condition that, in any design application, any utility application filed before June 8, 1995, or any plant application filed before June 8, 1995, the petition is accompanied by a terminal disclaimer dedicating to the public a terminal part of the term of any patent granted thereon equivalent to the period between the mail date of the notice of abandonment and the filing date of such petition to withdraw the holding of abandonment. See 37 CFR 1.183 (the Office may suspend or waive the requirements of 37 CFR 1.181(f), subject to such other requirements as may be imposed). The Office may treat an untimely petition to withdraw the holding of abandonment on its merits in a utility or plant application filed on or after June 8, 1995, on the condition that the petition is accompanied by a terminal disclaimer dedicating to the public a terminal part of the term of any patent granted thereon that would extend beyond the date 20 years from the filing date of the application, or the earliest application to which the application specifically refers under 35 U.S.C. 120, 121, or 365(c). In either case, the terminal disclaimer must also apply to any patent granted on any application that claims the benefit of the filing date of the application under 35 U.S.C. 120, 121, or 365(c). Such a terminal disclaimer is not required under 37 CFR 1.137(d) because abandonment of an application is a *per se* failure to exercise due diligence, and as such, an applicant cannot obtain patent term extension under 35 U.S.C. 154(b) due to prosecution delay caused by abandonment of the application. Where a petition to withdraw the holding of abandonment is granted, the application is considered to never have been abandoned and, as such, the prosecution delay caused by the treatment of the application as abandoned is not considered a *per se* failure to exercise due diligence. Thus a terminal disclaimer is required to avoid granting patent term extension under 35 U.S.C. 154(b) due to prosecution delay caused by the treatment of the application as abandoned.

In any event, where the record indicates that the applicant intentionally delayed the filing of a petition to withdraw the holding of abandonment, the Office may simply dismiss the petition as untimely (37 CFR 1.181(f)) solely on the basis of such intentional delay in taking action in the application without further addressing the merits of the petition. Obviously, intentional delay in seeking the revival of an abandoned application precludes relief under 37 CFR 1.137(a) or (b) (discussed below).

II. PETITION TO WITHDRAW HOLDING OF ABANDONMENT BASED ON FAILURE TO RECEIVE OFFICE ACTION

711.03(c)

In *Delgar v. Schulyer*, 172 USPQ 513 (D.D.C. 1971), the court decided that the Office should mail a new Notice of Allowance in view of the evidence presented in support of the contention that the applicant's representative did not receive the original Notice of Allowance. Under the reasoning of *Delgar*, an allegation that an Office action was never received may be considered in a petition to withdraw the holding of abandonment. If adequately supported, the Office may grant the petition to withdraw the holding of abandonment and remail the Office action. That is, the reasoning of *Delgar* is applicable regardless of whether an application is held abandoned for failure to timely pay the issue fee (35 U.S.C. 151) or for failure to prosecute (35 U.S.C. 133).

To minimize costs and burdens to practitioners and the Office, the Office has modified the showing required to establish nonreceipt of an Office action. The showing required to establish nonreceipt of an Office communication must include a statement from the practitioner stating that the Office communication was not received by the practitioner and attesting to the fact that a search of the file jacket and docket records indicates that the Office communication was not received. A copy of the docket record where the nonreceived Office communication would have been entered had it been received and docketed must be attached to and referenced in practitioner's statement. For example, if a three month period for reply was set in the nonreceived Office action, a copy of the docket report showing all replies docketed for a date three months from the mail date of the nonreceived Office action must be submitted as documentary proof of nonreceipt of the Office action. See Notice entitled "Withdrawing the Holding of Abandonment When Office Actions Are Not Received," 1156 O.G. 53 (November 16, 1993).

The showing outlined above may not be sufficient if there are circumstances that point to a conclusion that the Office action may have been lost after receipt rather than a conclusion that the Office action was lost in the mail (e.g., if the practitioner has a history of not receiving Office actions).

Evidence of nonreceipt of an Office communication or action (e.g., Notice of Abandonment or an advisory action) other than that action to which reply was required to avoid abandonment would not warrant withdrawal of the holding of abandonment. Abandonment takes place by operation of law for failure to reply to an Office action or timely pay the issue fee, not by operation of the mailing of a Notice of Abandonment. See *Lorenz v. Finkl*, 333 F.2d 885, 889-90, 142 USPQ 26, 29-30 (CCPA 1964); *Krahn v. Commissioner*, 15 USPQ2d

**PETITION TO WITHDRAW HOLDING OF ABANDONMENT BASED ON
FAILURE TO RECEIVE OFFICE ACTION (MPEP 711.03(c))**

Sir:

Our office, which represents the Applicant in the above-referenced case, received a Notice of Abandonment mailed on October 28, 2003. The Notice of Abandonment said that the application went abandoned for failure to timely or properly reply to the Notice of Missing Parts mailed on July 15, 2002.

The mentioned Notice of Missing Parts has never been received in this application. We searched the file jacket and verified all the docket entries, and nowhere in those records could a copy of the above-mentioned Notice of Missing parts be found. In fact, we became concerned with receiving no communication at all from the Patent Office in this case for a long time. Therefore, two status inquiry letters were sent to the Patent Office, as is evidence from the enclosed copies. No communication at all was received from the Patent Office until the above-referenced Notice of Abandonment came in.

As a practitioner responsible for this case, I attest to the facts enumerated in this petition and state that no Patent Office's communication to which a reply was due has been

Application Serial No: 09/681,014
Filed: November 20, 2000

received in this case. A copy of the docket sheet of April 17, 2003 and June 9, 2003, where the entries of the Notice of Missing Parts would have been listed, had it been received in this case, is enclosed with this petition.

Moreover, our office has not been able to track the entries in this file in PAIR, because despite our request to associate this case with our customer number, that has not been done by the Office. On May 8, 2003, we filed a Revocation and Grant of Power of Attorney, signed by the Assignee of the above-referenced application, which included Serial Number 09/681,014. A copy of the filed Revocation and Grant of Power of Attorney and the first page of Appendix A is enclosed with the petition. Additionally, in accordance with the established EBC procedure for a customer number upload, our office sent to the EBC a diskette with an Excel spreadsheet, listing Serial number 09/681,014 on June 3, 2003 (line 19 in the enclosed copy of the Transmittal of Customer No. Diskette. Other entries in the spread sheet have been blocked out for client confidentiality purposes). For the reasons unknown to us, Serial Number 09/681,014 has not been uploaded, because we cannot see it in PAIR under our customer number. Therefore, this office could not have found out that the above-referenced Notice of Missing Parts had ever been mailed in the application.

Therefore, Applicant respectfully requests that the Office withdraw its Notice of Abandonment mailed on October 28, 2003, and send the undersigned a copy of the Notice of Missing Parts for submitting a response.

If there are any questions or concerns associated with the present petition, please contact the undersigned at the phone number provided below.

It is believed that no fee is due with this petition. If a fee is due, authorization is given to charge our deposit account 50-2233.

Respectfully submitted,

NOTICE OF ABANDONMENT UNDER 37 CFR 1.53 (f) OR (g)

The above-identified application is abandoned for failure to timely or properly reply to the Notice to File Missing Parts (Notice) mailed on 07/15/2002.

- No reply was received.

A petition to the Commissioner under 37 CFR 1.137 may be filed requesting that the application be revived.

Under 37 CFR 1.137(a), a petition requesting the application be revived on the grounds of **UNAVOIDABLE DELAY** must be filed promptly after the applicant becomes aware of the abandonment and such petition must be accompanied by: (1) an adequate showing of the cause of unavoidable delay; (2) the required reply to the above-identified Notice; (3) the petition fee set forth in 37 CFR 1.17(l); and (4) a terminal disclaimer if required by 37 CFR 1.137(d).

Under 37 CFR 1.137(b), a petition requesting the application be revived on the grounds of **UNINTENTIONAL DELAY** must be filed promptly after applicant becomes aware of the abandonment and such petition must be accompanied by: (1) a statement that the entire delay was unintentional; (2) the required reply to the above-identified Notice; (3) the petition fee set forth in 37 CFR 1.17(m); and (4) a terminal disclaimer if required by 37 CFR 1.137(d).

Any questions concerning petitions to revive should be directed to the "Office of Petitions" at (703) 305-9282. Petitions should be mailed to: Mail Stop Petitions, Commissioner for Patents, P.O. Box 1450, Alexandria VA 22313-1450.
